Message from the President

The School was founded in April, 2008 in response to the overwhelming need for higher nursing education in Saku City, Nagano prefecture, where the rural health care enjoys an international reputation for quality.

The University's mission is to provide leadership to further improve the health care of individuals, families, communities through nursing education, research and practice. Five key words for this school are Humanity, Health, Globalism, Education and Nursing.

We are waiting to welcome applicants with pioneering spirits.

President, Saku University

Fuki Horiuchi,

堀内 ふき

Mission

Saku University School of Nursing offers a four-year undergraduate curriculum leading to a Bachelor's Degree in Nursing. Graduates are qualified to sit the National Board Examinations for nurses and public health nurses administered by the Government of Japan (MHLW). In addition to classroom study and clinical practice, the curriculum enhances student education through community involvement and on-site training at several area health-care facilities. Students enrolled in the master's program learn research skills and advanced application methods.

Philosophies and Purposes

The University is dedicated to the fostering of an environment of intellectual excitement and an educational climate that stimulates both faculty and students.

Emphasis is placed on the advancement and dissemination of knowledge as a center of learning concerned with the arts and humanities, the study of human nature, human relationships and the knowledge and skills necessary for constructive participation in the nursing profession. The University engages the international community and supports a wide range of overseas exchange opportunities. Relations are also maintained with other regional and national institutions for the purpose of sharing resources, teaching, and research.

Historical Background

- 1988 Shinshu Junior College was established
- 2006 Care & Welfare Division was founded in the Sinshu Junior College
- 2008 Baccalaureate School of Nursing was established

5. Adult Health Nursing
6. Gerontological & Psychiatric Nursing
7. Community & Home Health Nursing

The Midwifery program

is one-year curriculum for registered nurses to sit for the National board Examination in midwifery.

Global Connections

Saku University is a leading center for regional and international education and research exchanges in preparing human resources during an increasingly global age. For instance, nursing researchers from St. Louis College (Bangkok, Thailand) were invited for cultural exchange and lectures funded by UMAP (University Mobility in Asia and the Pacific). And as a joint research project, researchers from Kent State University (Ohio, USA) are collaborating in an international comparative study on depression. Students who are taking the international nursing course at Saku University are eligible to take courses at St. Louis College.

Scholarship and Financial Support

The students can apply for the scholarship and financial support to the some foundation like International Nursing Foundation of Japan (INFJ), an organization like The Japan Ministry of Education (MEXT), and Japan International Cooperation Agency (JICA).

Location

Nagano Prefecture

Located amidst the Japan, Nagano Prefecture is known for its natural beauty and the longevity of its people. Mountaineering in summer, skiing in winter and hot spring in any seasons are popular activities. Saku City is easy to access from Tokyo by Bullet train. A climate is temperate, averaging 10 degree Celsius in the winter and 24 degree Celsius in summer.

More than 25% of the prefecture's population is over 65 year old and the vast majority is healthy. The average life span is 88 years for men and 87 years for women (2015).

Ninety eight percent of graduates from Saku University secured primarily hospital-related employment in Nagano Prefecture. Alliances with regional hospitals and clinical learning institutions provides strong community ties and outstanding training relations, particularly in rural community health care.

In Nagano Prefecture, there are 8 colleges and universities. The universities which joined in the Shinshu-consortium share and collaborate in teaching activities.
